This special presentation of PSI's Advanced Perinatal Mental Health Psychotherapy Training course will be presented by persons of color for persons of color, and will focus on serving the needs of BIPOC families. The training is open to Black, Indigenous, and other providers of color.

The Advanced Perinatal Mental Health Psychotherapy Training course uses an evidence-based curriculum designed for mental health and psychotherapy providers who have previously completed at least fourteen hours of perinatal mental health training. This advanced training covers differential diagnosis, evidence-based psychotherapeutic approaches, and advanced therapeutic issues. It combines expert presentation with case studies, group discussion, and practical examples of treatment approaches.

Continuing Education

APA: Postpartum Support International (PSI) is approved by the American Psychological Association to sponsor continuing education for psychologists. Postpartum Support International (PSI) maintains responsibility for this program and its content. Up to 6 hours of credit available.

NBCC: Postpartum Support International has been approved by the National Board for Certified Counselors (NBCC) as an Approved Continuing Education Provider, ACEP No. 6765.
